

**St. Lawrence University Oral Communication Institute**

**Fall 2003**

**Reflective Writing Assignment**

**For the first part of the paper, please reflect on the substance and process through which you worked when completing the *Reflective Conversation Worksheet* on your own. Where did the questions lead your thinking about teaching when engaging with them by yourself?**

**When you had to explain your ideas and rationales to another person, in what ways did the dialogue crystallize your thinking and in what ways did you attend to the feedback from your peer partner?**

**In thinking about your participation in the OCI, please reflect and comment on how critically engaged conversations with colleagues about pedagogy affected your own teaching and learning experiences.**

**\*\*\*Please submit electronically to Lori Good by Wednesday, December 10, 2003.\*\*\***
