• RESEARCH is front and center

• Two ways to search library holdings (Encore and ODYSseus)

• COURSE approach to readings and resources
Encore – Search for books, videos, digital collections...

- Enter a keyword search in Encore to find books, videos and digital collections
- There’s an implied AND between keywords
- Use quotation marks to search for an exact phrase

You can refine your results by format, location, language, date...

And, you can use Tags to refine your results by subject.
• Clicking on the tag **English children's literature** gives you a subset of your original results.

• This book is AVAILABLE in the ODY Upper Level, under the Library of Congress Call Number PR 990 .O94 2011

• We often include Notes and Tables of Contents to enrich keyword searching.

• If this book had been checked-out, you could use ConnectNY to request a copy from another college in New York.

• Click on **Export to RefWorks** to save this citation in your RefWorks account.
• All of the disciplines taught at St. Lawrence are displayed on the library homepage.

• **GENERAL SOURCES** is an excellent starting place for many researchers.

• There’s no one, single “right” index. Use a combination if indexes to do comprehensive research.

• **Academic Search Complete** provides broad, multi-disciplinary coverage and supports “Federated Searching”. 
Before you enter search terms, click on **Choose Databases** to search multiple indexes at the same time.

Check off all of the indexes that pertain to your research topic and search them simultaneously (this is called Federated Searching).
• Enter appropriate keywords.

• You can restrict your results to **Scholarly /Peer Reviewed Journals** only if you wish.

• The **FULL TEXT** of many articles is available online.

• **HTML Full Text** – words only, prints quickly, often no pagination.

• **PDF Full Text** – words, graphics, and charts are included; might take a while to download and print.

• **Linked Full Text** – takes you to a PDF in another database.

• Use **FIND@SLU** to locate journal articles that are not FULL TEXT.
Use the Source Type to limit your results
