- Was created during the time period being studied
- Creator has first hand knowledge of the events being described
- Can be a document, photograph, painting, picture, recording...

Secondary Source – a definition

- Comments on, builds upon or cites a primary sources
- Hindsight

“Primary sources are original works, such as historical documents, literary works, eyewitness accounts, diaries, letters, and lab studies, as well as any original field research you do. Secondary sources include scholarly books and articles, reviews, biographies, and other works that interpret or discuss primary sources. For example, novels and poems are primary sources, articles interpreting them are secondary sources”.
