9/24/2015

Power strip with resettable circuit breaker; black reset button visible adjacent to cord.

Prohibited three to two prong adapter. These may never be used at

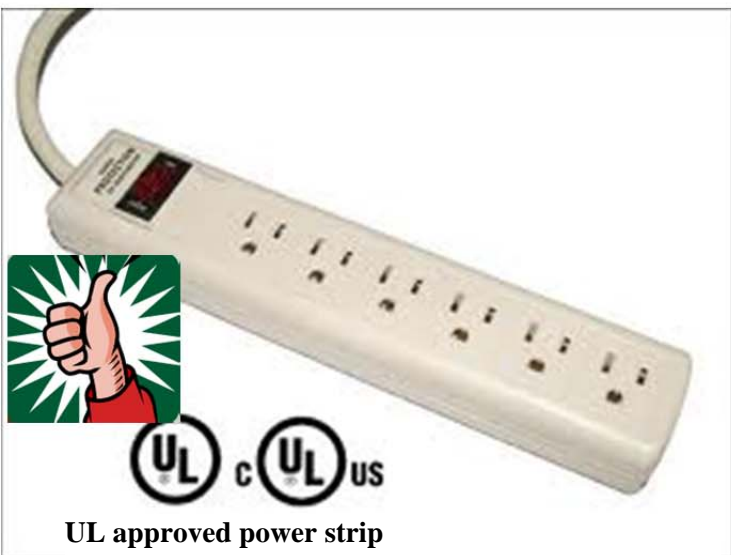

UL Listed sticker on the back of a power strip; all power strips, multi-outlet adapters, extension cords and UPSs must be UL Listed.

Prohibited multi-outlet adapter; multi-outlet adapters must have resettable circuit breakers.

A UL listed power strip with resettable circuit breaker will protect you from fire and can cut down on wasted electricity. Upgrade to one with surge protection to protect your electronics.

UL approved power strip
